

BAJA, MEXICO

SEA ADVENTURE 2020

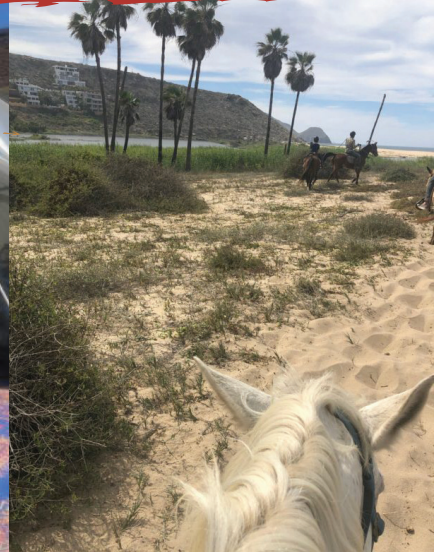

January 26-February 1, 2020

Fine Terre – the end of the world at the tip of the peninsula on the Pacific side.

Our “tent” had a fan for the few hours of heat during the middle of the day.

We found the best riding stable – we had all levels and ages.

This tour of the southern Baja peninsula of Mexico is an eco-adventure tour to FineTerra, the tip of the world, where beaches meet the desert; where sea life is protected by a marine park; where distances are manageable; and where the service is excellent.

We include horseback riding, half day hikes, a cooking class, a surfing class on a beautiful beach and plenty of time to snorkel around sea lions, schools of fish, maybe a turtle? At this time of year, the whales are visible from great distances and sometimes they are very close!

Enjoy the stillness of the remote Isla Espiritu Santos where all meals are cooked with abundant care; the beds

are made up for you daily; the naturalist guides will be able to enlighten your views of the diverse and unique marine bio system here. Paddle a kayak around the mangrove trees, hike through the palms growing thick in the swampy oasis to emerge a few yards later onto the sand beaches. The desert encompasses the mid section of the mountainous region where it is possible to find pine woods, even some small deer.

Our tour will stay along the coast of the Pacific, then cross the isthmus to the Sea of Cortez for glamorous living on an uninhabited Isla Espiritu Santos (Holy Spirit).
